

PROXAE

Certificate of Prior Art

Cryptographic proof of existence

This certificate attests that the content identified by the SHA-256 fingerprint below existed at the stated date. This proof is permanently and immutably anchored in the Bitcoin blockchain, and timestamped under the European eIDAS standard (RFC 3161).

CERTIFICATION DATE

15 March 2026 — 14:32 UTC

SHA-256 FINGERPRINT

a3f8c2e71d904b56f0812c3a9e47d1b2c5f6e8a0d3b7c941e2f5a8b0d4c7e930

ANCHORED IN THE BITCOIN BLOCKCHAIN

Block #885,432

15 March 2026, 17:04 UTC

EIDAS QUALIFIED TIMESTAMP · RFC 3161

Qualified timestamp compliant with EU eIDAS regulation

Issued by Sectigo Qualified Time Stamping CA — <http://timestamp.sectigo.com/qualified>

This certificate is automatically produced by Proxae. The evidentiary value of this proof rests on the immutability of the Bitcoin blockchain and the eIDAS qualified timestamp, independently of Proxae. To assert this proof, this certificate must be presented together with the original certified file or document.

FOR ILLUSTRATION PURPOSES ONLY — NOT A VALID CERTIFICATE
